“All poker players should join the PPA and unite behind our common goal of protecting this game we love”
Greg “Fossilman” Raymer

ONLINE POKER BAN

The Internet Gambling Prohibition amendment requires financial institutions to monitor and block your funding of your poker accounts, whether you use Credit Cards, Stored Value Cards, electronic checks (debits), or electronic funds transfers.

The PPA continues to demand that poker receive separate treatment from other forms of gaming.

Our desire is to achieve the same type of exemption from legislation that other interests have received (Horse racing, State Lotteries, and Fantasy Leagues).

1 MILLION MEMBERS IN 2007

The strength of the PPA comes from its members. In order for the voice of the Poker Players Alliance to accomplish its goals we need the support of poker players. That is why we are setting a goal to reach 1 million members in 2007.

Please take a few more brochures and talk to your fellow poker players. Spread the word about the PPA and its fight for poker player rights.

Every member counts.

ABOUT

The Poker Players Alliance is a non-profit membership organization comprised of online and offline poker players who joined together to speak with one voice to promote the game, ensure its integrity and protect the right to play poker.

MISSION

The Poker Players Alliance mission is to guarantee poker players a secure, safe and regulated place to play. Through education and awareness, the Poker Players Alliance will keep this game of skill, one of America's oldest recreational activities, free from egregious government intervention and misguided laws.
